

Really

Rothy

I can see the color of sky
All the winds of blue
I can feel you smiling
As I think of you

No one knows you are mine
But you know I am yours
I'm falling in too deep (yeh)

I can't help but to daydream of
Being the one for you (yeh)
I can feel your heart is
Burning like me too

I won't go anywhere
So I'll stand by you here
Please, I want You (yeh!)

No-one- else, no-one- else really
Who loves you like me (yeh)
Someone- else, someone- else really
Who loves you indeed

I can swear by the stars
I will stay by your side
I wanna do so, that's me
Oh~

Even though I feel uneasy
I can't keep away, so
Wanna be around you
More and more each day

No one knows you are mine
But you know I am yours, so
I hate you. Yes!

I wanna be, wanna be, really
Someone you want too (yeh)
I wanna see, wanna see, really
You and me come true (yeh)

I can swear by the stars
I will stay by your side
I wanna do so

In this dance of emotions I'm falling
To stop it now is impossible, no...

It's all upside down
There's no right or wrong
But, can I be your one eternity oh right!

I wanna be, wanna be, really
Someone you want too (yeh)
I wanna see, wanna see, really
You and me come true (yeh)

I can swear by the stars
I will stay by your side
I wanna do, so
(I don't think you miss me right)

No-one- else, no-one- else really
Who loves you like me (yeh)
Someone- else, someone- else really
Who loves you indeed

I can swear by the stars
I will stay by your side
I wanna do so, that's me

(I don't think you miss me right)
