

# Baecation

Rotimi

Baby, I know you tired  
How bout a little beacation  
Just you and me alright

You been workin' yourself up  
I can tell you need some time away  
From everything  
I'm a change your position bae  
I'm a make you the boss and I'll be the employee bae

Tell me what you want me to do  
And I'm a do it for you  
What ever you want  
Say it and I'll make it come true  
We don't have to go far  
We can do it right here in the car  
We don't have to go know where at all  
I just want to be right where you are

Girl, I wanna give you a baecation  
I know that's what you been waiting on  
Girl, you don't have to wait no longer  
Oh no no no baby

I want to give you a baecation  
Baby, you ain't gotta bag now  
But your love, that will be enough  
On this baecation, with just us

Baby, just chill  
Like your on the passengers side  
And I got the whip  
Baby, I'm a drive like we on the highway  
In a drop top  
You ain't got nothin' on

So I'm a do everything for you  
What ever you want  
Say it and I make it come true  
We don't have to go far  
We can do it right here in the car  
We don't have to go know where at all  
I just want to be right where you are

Girl, I wanna give you a baecation  
I know that's what you been waiting on  
Girl, you don't have to wait no longer  
Oh no no no baby

I want to give you a baecation  
Baby, you ain't gotta bag now  
But your love, that will be enough  
On this baecation, with just us
