

Hey Boy

Rotimi

Baby, baby, yeah

I always tend to make complications
Thought by now I'd move past my phases
Tryna feel that certain sensation
I been waiting, I been waiting

I took a hit three times it opened my
Mind mind mind mind, yeah
I look you up and down when you pass
By by by, yeah
And I wonder if everyone else feels the same
Or I'm by myself tryna figure this game
I want your love but don't know what to say
But tomorrow it's too late
So tonight I'm saying

Hey boy hey boy hey boy hey boy
Enough to go around and I'll be like
Hey boy hey boy hey boy hey boy
I'll try to love you

Hey girl
I want to know your name
You so fine and I'm glad you came
Waste no time, no baby no we can't
Let the night slip away

Hey girl
You got it
You don't know, but ask about me
Jump on it,
Come ride it
Don't you fight it, yeah yeah

I'm a bad man, you're a bad girl
You a diamond, I want a rough girl
I do it till you get enough girl
Don't you fight it, yeah yeah

Make you come three times,
I'll blow your
Mind, mind, mind, mind
You want to be my bad girl,
I'mma have you saying

Hey boy hey boy hey boy hey boy
Enjoy to go around and I'll be like
Hey boy hey boy hey boy hey boy
I'll try to love you

And I wonder if everyone else feels the same
Or I'm by myself tryna figure this game
I want your love but don't know what to say
But tomorrow it's too late
So tonight I'm saying

Hey boy hey boy hey boy hey boy
Enough to go around and I'll be like
Hey boy hey boy hey boy hey boy
I'll try to love you

I'm a bad man, you're a bad girl
You a diamond, I want a rough girl
