Baby, I see that you're with that other guy  
While I look you in your eyes  
Ouu I'm jealous  
Can you believe it  
Want you all to myself  
Tell him he can start leaving (yeah)

Been so long since you made  
Sweet love and some foreplay  
Touch you under cover  
And reveal it to no other  
A meeting in my bed  
Come eat you some souffle  
Then we could be lovers  
Take you to go meet my mother

No you don't need nobody uhh  
You don't need nobody  
You don't need nobody (but me)  
You don't need nobody (but me)

I'll make you say  
Uhh uh uh uh uh uh oh  
I'll make you say  
Uhh uh uh uh uh uh oh  
I'll make you say
