Next to your love, next to your love  
I wanna get next to your love  
Next to your love, next to your love, oh

Keep me nice, punani righteous  
Can't divide us 'cause you are my baby  
Girl I tek you on, I make you feel like fuck  
Cock it up and jack it up and give you this woah  
Suicide doors the way your legs [?]  
The way your pussy locked on mi body handcuff

You got me hypnotized but I know that it's alright  
Girl I apologize, never been too anxious, uh

I just wanna get next to your love, next to your love, uh
