Rotimi

I can't be that kinda guy
I don't wanna live that life
I can never tell you lies
Hard enough for me to sleep at night
Cause even when I'm all alone, I
Know you feel it on the other side
The difference is they come and go
But your the one of one type

Cause I can face
Many choices I've made
But with you
I won't make that mistake
I tell them all no no no no no no
I tell them all no no no no no no

Playing games
They playing games I won't play
But I won't break
Its not a risk I would take
I tell them all no no no no no no
I tell them all no no no no no no

Worry about your man I swear you
Don't have to
Answer when you call
Won't stress you
You're too special
We never have to end I swear boo
You don't have to
Worry about your man I swear
Never have to worry I swear

Cause I can face
Many choices I've made
But with you
I won't make that mistake
I tell them all no no no no no no
I tell them all no no no no no no

Playing games
They playing games I won't play
But I won't break
Its not a risk I would take
I tell them all no no no no no no
I tell them all no no no no no no
