

Polaroid

Rotimi

(Hitmaka)
(Right Now Sound)
Baby, baby (Sound)

Skin tone and different accents (Yeah)
Body shaped like hourglasses (Yeah)
Polaroids and camera flashes (Yeah)
Take time and slow your dancin' (Yeah)

Show me your favorite angle
I'll try my best to behave
Take it up another level
I'll promise I'll do the same
I need another minute
So many visions in my brain
Don't wanna lose a moment
Just wanna keep you in the frame (Yeah)

And she said, "You can't save me, baby, you can't save me" (And I told her)
I barely know you aside from my screen (I told her)
Come get your close-up and bring it to me
Oh, yeah, I want you, I need you, yeah, I want you

Skin tone and different accents (Yeah)
Body shaped like hourglasses (Yeah)
Polaroids and camera flashes (Yeah)
Take time and slow your dancin' (Yeah)

Show me your favorite angle
I'll try my best to behave
Take it up another level
I'll promise I'll do the same
I need another minute
So many visions in my brain
Don't wanna lose a moment
Just wanna keep you in the frame

And she said, "You can't save me, baby, you can't save me" (And I told her)
I barely know you aside from my screen (I told her)
Come get your close-up and bring it to me
Oh, yeah, I want you, I need you, yeah, I want you

Can you be that somebody?
Everyone needs somebody
You need your own paparazzi
And your own personal stylist
I hope I get to be your sidekick
Fuck in the dressing room, keep it private
If you not too opposed, can you try this?
You was everybody biz, now you my biz
I might get a little possessive
And I might get a little aggressive
But you know I've got good intentions
Now I'm needing you, now I'm needing you, ooh

Skin tone and different accents (Yeah)
Body shaped like hourglasses (Yeah)

Polaroids and camera flashes (Yeah)
Take time and slow your dancin' (Yeah)

Show me your favorite angle
I'll try my best to behave
Take it up another level
I'll promise I'll do the same
I need another minute
So many visions in my brain
Don't wanna lose a moment
Just wanna keep you in the frame
And she said-
