

# Time Ain't On Our Side

Rotimi

You gotta be the one that I stop and say  
You gotta be the one to spend the holidays  
You gotta be the one that got a way  
You gotta be the one that got a way

Ever since the day I met her  
Ain't found nothing better  
And I know we not together  
But girl you mines forever

Baby so I  
Imma delete my pride  
They were days I needed you days I even cried  
Wish I was with you again I can't even lie  
But we both know that time ain't on our side  
Time ain't on our side  
Babe I  
Imma delete my pride  
They were days I needed you days I even cried  
Wish I was with you again I can't even lie  
But time ain't on our side  
Time ain't on our side

Time ain't on our side  
Time ain't on our side

You remind me of  
Everything that I needed but it never was  
I miss the memories of when we fell in love  
I feel like we cheated ourselves out of a happy ending

I  
Imma delete my pride  
They were days I needed you days I even cried  
Wish I was with you again I can't even lie  
But we both know that time ain't on our side  
Time ain't on our side  
Babe I  
Imma delete my pride  
They were days I needed you days I even cried  
Wish I was with you again I can't even lie  
But time ain't on our side  
Time ain't on our side

When I would take it low  
You would take it high  
You would ask when  
So I would ask why  
When I let it go  
You wanted to try  
I tried to pour life  
But I let it die

You gotta be the one that I stop and say  
You gotta be the one to spend the holidays  
You gotta be the one that got a way  
You gotta be the one that got a way

Ever since the day I met her  
Ain't found nothing better  
And I know we not together  
But girl you mines forever
