

Want More

Rotimi

Rotimi!
Kranium!
Call me...
Hear wha' gwan
Hold up!

It's never late, a summer day
Still make me wonder
Should have been, you and me
But never say never
The way you settled down with him, you be settling
Mama, why you waste your time?

Won't go so far to say, you can do better
Baby, so far no good, looks like you're fed up
Everytime you walk away, girl its something extra
Call me when you want more, when you want more
Call me when you want more, when you want more
Call me when you want more, when you want more
Everytime you walk away, girl its something extra
Call me when you want more, when you want more

When me say, "me a cum!", you don't haffi wait
Please, me a beg you, baby, open the gate
Love satisfaction, me a set your body straight
Give you my loving all night 'til you can't wake
Why won't you just wait for me, baby? (For me, baby?)
Put that something sexy on for me girl, yeah (For me girl, yeah)
You fi know this yah man a boss, real trendsetter
From you lef' me, you can't find no better
Better jump ship and jump inna da jet yah
Make your body spin 'round like a propeller
Why won't you just wait for me, baby? (For me, baby?)
Put that something special for me girl, yeah (For me girl, yeah)

Won't go so far to say, you can do better
Baby, so far no good, looks like you're fed up
Everytime you walk away, girl its something extra
Call me when you want more, when you want more
Call me when you want more, when you want more
Call me when you want more, when you want more
Everytime you walk away, girl its something extra
Call me when you want more, when you want more

(Call, call, call)
Call me
(Call, call, call)
Call me

Where you been my life?
Let me dress you nice
Could be wasting time
Fuckin' with a young boy, not tonight
I could try to fly anywhere you like
You should leave tonight
You could never handle words like that
See, there's a difference between settling down and settling

Why you try to force your smile?

Won't go so far to say, you can do better
Baby, so far no good, looks like you're fed up
Everytime you walk away, girl its something extra
Call me when you want more, when you want more
Call me when you want more, when you want more
Call me when you want more, when you want more
Everytime you walk away, girl its something extra
Call me when you want more, when you want more

(Call, call, call)

Call me

(Call, call, call)

Call me

(Call, call, call)

Call me when you want more, when you want more
