

## Vandalized

Rotting Out

Running, running I've lost my way  
There's no reason for what I feel inside  
Cause it's all in my head and it makes me sick  
So fuck this life and your perfect plan  
If you take this journey through my brain  
You'd see these scars and feel my pain  
If I had a choice, I'd make it go away  
But its me, I like it, it's here to stay  
It's electricity through my mind  
It ruins each day, it's just a matter of time  
These dark and empty buildings have no one inside  
And I'm along with my thoughts with time to vandalize  
My brain is, its fucking with me  
Its making me go insane  
I want to get away, I got nowhere to hide
