

# Neutrophobia

Rough Silk

The fogs dared to cover the stoney ground  
Holy creatures found out they're Pandemonium bound  
The whistlin' winds met the lightnings of doom  
And the questioner gets the answer:  
"Here comes the groom!"

There's an old man dressed in black  
From the wrong side of the track  
Just to tell us he came back  
That the world's going down the drain  
-Ain't that insane?

Sidewalk angels close their eyes  
On the road to paradise  
They have stopped here just to pay the price  
For silence, lust and pain  
-A question in vain?

And your heart - in the end  
Will be your one and only friend  
Life's been torn apart - built on sand  
And some...  
Tears, sweat and come  
Neutrophobia - to me

Creatures from the other side  
Wake you up every single night  
You can't escape - no place to hide  
The voices are calling your name  
-Echoes of shame

Set me free - why can't you see  
My life ain't what it used to be  
Why don't you give it back to me  
I hate you in this vicious game  
And I ain't to blame

'Cause your heart - in the end...

I don't know - I don't care - I don't cry - I don't share  
I've erased all the thoughts in this endless nightmare  
I don't give - I just take and I never play fair  
I don't help - I am dead now so better beware

But the voice in my head is still torturing me  
Gettin' louder and brighter - I won't find a key  
So I scream and ask: "What are you doin this for?"  
And the answer is a laughter: "All we want is your..."

Tears, sweat and come...

Someday soon the swamps will conquer your life  
While your reasons turn to ashes and tragedies dive  
When the night gets longer - the day won't wait  
When you come too soon - well, you'll leave too late!
