

# We All Need Something To Hold On To In This Life

**Rough Silk**

Come take my hand - I'll be by your side  
Guide you through the darkness `till you reach the light  
Let me give you hope when the ghosts arrive - we all need Someth  
ing to hold on to in this life  
Remember who you'd planned to be  
What you dreamed of, too and all you wanted to see  
Don't let those memories cut you like a knife  
We all need something to hold on to in this life

We all need something to hold on to in his life  
We all need something to hold on to in this life  
A reason to walk on  
When your cause is dead and gone  
We all need something to hold on to in this life

Now this big ol' world spins round and round  
Like a tumbleweed  
We're getting lost and found  
So dry your tears and press "overdrive"  
'Cause we all need something to hold on to in this life

We all need something to hold on to in his life  
We all need something to hold on to in this life  
A reason to walk on  
When your cause is dead and gone  
We all need something to hold on to in this life
