

ROB WHO?

Rowdy Rebel

My driver stole up all my sleep
Tell that that he ain't safe
Niggas post my jewelry
Tell them niggas post they face

My niggas itching to jump out the window
I had to tell my niggas to wait
My 1090 out of town
I told them drive in from out of state
I get to killing when I get around
We never worry, we just play it safe
I know Tre pounds from a shorty
If I tell him blow the he better spray
They tried to put me on the waste
Like we ain't popping out with sticks
They tryna get me to go crash
Risk my whole life for the shit
They trying to get me out my bag
The block is exciting shit
They know me from my past
Ain't with that typing shit
I gotta watch why I call my friends because I can't let niggas close
I gotta keep this glock on my bands because ya'll be dropping the phones
Aye, glock 25 can fit in my pocket
I put that bitch on and I blow
You can ask Bbo that raised me, he's gonna tell you treat me to goat

If you think niggas got up on me, kill the noise, you outta line
Niggas really tried that shit, they would've died. Bottom line
Shoots fired, check the news, another one channel 9
They just dropped a body around my way but it wasn't mine

Let's talk bout who got litty
Whos block out here get busy
Let's talk about speaking about facts
Who really put it on for the city
Let's talk about backing off for real
RIP to my nigga freak nitty
Let's talk bout shoot outs fr
Heard the opp bitch got hit in her titty

My niggas itching to jump out the window
I had to tell my niggas to wait
My 1090 out of town
I told them drive in from out of state
I get to killing when I get around
We never worry, we just play it safe
I know Tre pounds from a shorty
