

Africa, Center Of The World

Roy Ayers

Center of the world, Africa
Center of the world, center of the world, Africa
Africa
Africa is the center of the world
Latitude zero, longitude zero
Planned by the Creator
Says anthropists was the first man found on the earth
That earth was the motherland Africa
We know that without total understanding of what happened in the past, it would be difficult to relate to the future
We know that within the structure of the music, there should be a message
And the message should be truth
So now, we give you, Africa, the center of the world
Center of the world, Africa
