Better Days

Roy Ayers

Better days are coming
Better days are coming
Days are getting better
Better days are coming
Better days are coming
People will awaken

And you will see all, people, loving
And you will feel a, need for, caring

Better days are coming to you
Better days are coming to you
Better days are coming to you

Better days are coming (To you)
Better days are coming (For you)
Days are getting better
Better days are coming (To you)
Better days are coming (For you)
People will awaken

And you will see all, people, loving
And you will feel a, need for, caring

Better days are coming to you
To you, for you
Better days are coming to you
To you, for you
Better days are coming to you
To you, for you
