I Am Your Mind

Roy Ayers

All of your thoughts inside your mind
You got that? All of your thoughts inside your mind
Wanting to be free, free
Well, now you've got the chance to let your mind just grow and be free
Because the music is just on the same thing, things to free your mind
And if you let your mind be free then you can understand me
There's no need to be afraid of me because I want you to be free
I'm just trying to give you music from deep in me
(Just trying to give you music to be with you)
I am your mind (I am your mind)
Hey, hey, hey, I am your mind
Hey, hey, hey, hey, hey, I am your mind (I am your mind)
Within you is another in the magnitude of infinte strength, wisdom, and will
Now, you travel my roads through, never knowing your own true reality
Because my thoughts remain like distant quasars
You abuse me, never letting me stay and do as I feel
Our thoughts split from love affairs to choice of ends
We argue like two enemies yet we are good friends
Now, there are moments when he harmonize with each other and be at one with nature and reality
But these times are few
When after you have replenished yourself with fear of truths that's in
We split and you start run again—running, running, running, running
Running through women, men, jobs, people and life
Looking for the answers when I had it all along
But I smile, because I (I am your mind) am your mind (I am your mind)
(I am your mind, I am your mind)
Now, philosophies in me die like flies
Therefore you disbelieve my power and my will
Do we come together because you think you're the captain of your mind?
Well, you're not, because you think you are, I know I am
I am your mind
You're like a silent volcano set up on a mountain of dreams and goals
Waiting to flow over the top with success but you never erupt
Because you disbelieve my power and my will
Hey, hey, I need more than sex to nourish my equilibrium—but I do need sex
I also need sun, trees, stars, creativity, and love
But you saturate with too much of one and not enough of the other
(Not enough of the other) Therefore I cry (I cry)
But why do we cry? (Why?)
Because tears cleans the windows of our minds—I am your mind (I am your mind)
I want you to come closer, come closer, look (I am your mind)
Look over fluorescent plains down at the rich creative river valleys
Reaching into the inter-faithful powers of your soul—hey, brother, sister
There is, there is a paradise within you
Now, if that vision is cloudy, and only if that vision of that paradise is cloudy
It's because you cloud me with an overabundance of foods and drugs that destroy my reality
You asked me a question that I cannot answer (I cannot answer)
I am your mind (I am your mind)
Uh (Uh)
All of your dreams can become reality (All your dreams can become reality)
Mind now reaches full
But you've only been turning me (Halfway) halfway (Halfway)
Turning me up (Up), up (Up), up (Up, up), up (Higher), up (Up), up (Higher)

And alpha and theta waves must spew from your pores
Knowledge, peace, happiness, and prosperity will be placed at your feet
Let's (Let's, let's) create, solve, love, accomplish, unify, enhance, develo
p
Conquer, love, create, solve, stop killing each other
Patronize, enjoy, love, solve, love, accomplish, unify
(Love, create, solve, love, happiness, vibrations, solve, create, enhance, d
evelop, function, believe, love)
I was your mind yesterday, I am your mind today, and I am your mind tomorrow
And as our end draws near, we will become closer
But you and I, we will never be one (Unity)
For I will part from the mind, and you will part from me
You finding another mind (Woo), and I, another soul
And we'll travel on (And on, and on), and on (And on, and on, and on, on and
on, and on)
And on (And on, and on, and on, and on, on, and on, and on, and on, on, and
on, and on, and on, and on)
And on (And on, and on, and on)
