

# Love Will Bring Us Back Together

Roy Ayers

I want you near me  
Why can't you hear me?  
You seem so far away  
Please don't stay astray

Teardrops just keep falling  
My heart just keeps calling  
Love, will bring us back together, forever

I want you near me  
Why can't you hear me?  
You seem so far away  
Please don't go astray

Teardrops just keep falling  
My heart just keeps calling  
Love, will bring us back together, forever

Turn me on – would you come on home?  
Turn me on – would you come on home?  
Turn me on – would you come on home?  
Turn me on – would you come on home?  
Turn me on – would you come on home?  
Turn me on – would you come on home?  
Turn me on – would you come on home?  
Turn me on, ooh

Once we were together  
Our love was to control  
Now we're far apart – what do I do?  
What did I do?  
What do I do?

I just want you near me  
Why then can't you hear me?  
You seem so far away  
Please don't stay astray

Teardrops just keep falling  
My heart just keeps calling  
Love, will bring us back together, forever

Turn me on – would you come on home?  
Turn me on – would you come on home?  
Turn me on – would you come on home?  
Turn me on – would you come on home?  
Turn me on – would you come on home?  
Turn me on – would you come on home?  
Turn me on – would you come on home?  
Turn me on, ooh

I just want you near me  
Why then can't you hear me?  
You seem so far away  
Please don't stay astray
