Do doo do  
Do doo do  
I wonder why I'm so lonely  
Because I love you  
If you would be next to me  
I wouldn't be blue  
If you would know how I'm feeling  
You would feel so sad  
I wonder how it would be  
To be with you

I need love  
Love me now  
Do doo do  
(Really need your love)  
Really need your love  
Do doo do  
(Really need your love)

I need your mind and your soul now  
Won't you come and help me  
You know I'm no stranger  
I wanna love you  
I know that when you can do me  
I kept you happy  
You know that now that you're not with me  
You wanna be free

I need love  
Love me now  
Do doo do  
(Really need your love)  
Really need your love  
Do doo do  
(Really need your love)

If loving you is my future  
Then I just want it  
If having you as my lady  
I've got to have you  
If you will be with me always  
I'll always love you  
I need your mind and your soul now  
Won't you come and help me  
If you would know how I'm feeling  
You'd be right over here

I need love  
Love me now  
Do doo do  
(Really need your love)  
Really need your love  
Do doo do  
(Really need your love)

I need love  
Love me now

Do doo do  
(Really need your love)  
Do doo do  
(Really need your love)

I need love  
Love me now  
Do doo do  
(Really need your love)
