

# Simple And Sweet

Roy Ayers

Do-do do-do, do-do do-do  
Do-do do-do, do-do do-do

All of the things that we share  
To make a love so real (so real)  
Showing one another we care  
To bring about what we feel (feel)  
Hope in my heart, that you'll always be  
In my arms, like real close to me  
Hoping that love will shine on thee  
And make it last forever, ooh baby

'Cause loving you, loving you comes easily  
You're simple, sweet, and so good to me (good to me)  
Yes, you've become, haven't you see, can't you see?  
You're simple, sweet, and so good to me

Looking at the past times together (together)  
We've had many troubles to bear  
But strength and love and patience (patience)  
Has made a time we can share  
Look at the love we've been holdin' on (holdin' on)  
Smooth, bitter, you see (you see)  
Think of the love we've been dreamin' of  
Become reality (reality)

'Cause loving you, loving you comes easily  
Easily (simple and sweet)  
You're simple and sweet, baby, yeah yeah  
And so good to me (good to me)  
And Heaven is, is what we can see, can see (simple and sweet)  
You're simple, sweet, and so good to me, to me

Looking for a bid to the future (good to me)  
I can see you'll still be with me  
Our hearts will hold the bonds of love  
Some time past eternity  
All of my life and thereafter  
I'll be next to you, you  
We'll travel Heaven together  
That's how long we'll stay true, ooh

'Cause loving you, loving you comes easily (simple and sweet)  
You are, you're simple, sweet, so good to me... to me, to me  
Together we will be...
