

Slip N' Slide

Roy Ayers

I'm free, baby, can't see
Wouldn't you like to know
With me anything can be
Ready set go

Slip n slide
All night long
Slip n slide
All night long

I see your face in my mind
Makes me fantasize
No time to waste give a sign
Now I realize

Now only time will tell
Just how far we can
You know very well
Just let it, just let it go

So rare want to care
Baby, that's a fact
I'll try to take you high
Can we get to that

Late at night in my room
I'm dreamin' bout your touch
I think about what to do
Boy you mean so much

Slip n slide
All night long
I wanna slip n slide with you
Slip n slide
All night long
We can do it just for two

Now only time will tell
Just how far we can
You know very well
Just let it, just let it go

All night long
Baby, sugar
Slip n slide
All night long
(I wanna slip n slide with you)
Slip n slide
All night long
(Lets slide in my room)
Slip n slide
All night long
(Slippin' and sliding with you)
Slip n slide
Slip n slide
All night long
