When Is Real, Real?

Roy Ayers

When is real, real?
When is real, real?
When is real, real?
Somebody won't you tell me how you feel

Was it real when you came into the world and saw the light?
Is it real when you know yourself and the world you live in?
Or has this place we live in completely taken all your sight?
Tell me

When is real, real?
When is real, real?
When is real, real?
Somebody won't you tell me how you feel

Was it real when you took your sister by the hand and used her?
(Mmm, mmm, mmm)
Was it real when you called your brother a friend and abused hi
m?
Tell me

When is real, real?
When is real, real?
When is real, real?
Somebody won't you tell me how you feel

Maybe real is something inside your mind that's too gritty
Maybe real is something that you are afraid to see
Maybe real is giving up yourself with no regret
Maybe real is a moment sho'nuff that you can't forget (Ooh)
Now tell me, do you feel real, or do you really know real?

When is real, real? (Woo)
When is real, real? (Tell me)
When is real, real?
Somebody won't you tell me how you feel
When is real, real?
When is real, real?
When is real, real?
Somebody won't you tell me how you feel

Now tell me, do you feel real, or do you really know real? (Do
you know?)
Tell me, do you feel real, or do you really know real? (Can you
feel it?)
Tell me, do you feel real, or do you really know real?
Tell me, do you feel real, or do you really know real?
