Snow in the sky, don't wanna go  
How I'm alive, I'll never know (Woah)  
I wasn't there, hard to control  
Feeling aside, folding my board (Woah)

Take another small break  
It was raining above us  
On the walk back home, lock that door  
Back by four, living situation mad of course  
Sleeping in the city, hardwood floors  
Up to Willy when I can't sleep, I can't sleep, no-oh

At times I had you figured out  
This world around me had a doubt  
These things I knew nothing about  
And now I can't make go away
