Sugar Man

Roy Orbison

Look at me walking free, day and night
Here I come, I'm the one to treat you right
I'll make your dreams come true, I'll do what I can
Baby when I do, you can say you knew the sugar man

I can make lemon sweet, yes I can
I can make trick a treat, yes I can
I'm a walkin' honeycomb, complete with candy kisses
Woman come along, you don't want to miss this sugar man

When the temperature drops, call the heater man
When the water stops, call the plumber man
When you're feelin' lonely, you know who to see
Look in the yellow pages of your directory, look for me
Sugar in the mornin', sugar every night
Sugar in between times, sugar anytime

Take me by the hand I wanna be your sugar man
Baby understand, I gotta be your sugar man
Let me be your sugar man, I wanna be your sugar man
I gotta be your sugar man, Let me be your sugar man, I wanna be your sugar man...
