

Trying To Get To You

Roy Orbison

Well, I've been traveling over mountains,
Now even through the valleys too,
Well I've been traveling night and day
Running all the way
Baby trying to get to you

Well since I read your loving letter
Where you said you love me true
Well I've been traveling night and day
Running all the way
Baby trying to get to you

Well now there's nothing that could hold me
Or to keep me way from you
Since your loving letter told me
Aah that you really love me true

I just had to reach you baby
Well back of all that I've been through
I'll keep traveling night and day
Runnin' all the way
Baby, trying to get to you

Well if I had to do it over,
Well that's exactly what I'd do,
I'd keep traveling night and day
Runnin' all the way
Baby, trying to get to you

Well since I read your loving letter
Well my heart began to sing
There are many miles between us
Aah but they didn't mean a thing

Lord's above he knows I love you
Well it was he who brought me through,
When my way was black as night
He'd still shine bright as light
When I was trying to get to you
