

Can't Save You

Roy Woods

Chances

I was giving chances to you but now that I don't

Toxic

Is all that we are to each other

That's not what I want

Nonsense

Tell me straight to my face

There's nothing going on

I can't

Can't believe I got back involved

Who the one that let you out to let loose

How many gives did I give you

See how everybody gave you the deuce

Oh how I don't wanna save you

Girl you know the devil won't save you

And you're own nigga won't save you

Girl you the devil not gonna save you

Girl what you doing out in St. Lu

Wanted you to stay baby don't leave

Ain't nobody know your body like me

Girl I need to know where your heart is

Cause I feel it stepping when you around me

I didn't wanna talk bout all this

But since you gonna dig in get to know me

Bet there's still nothing you can show me

But you don't deserve it

How I'm really supposed to let it slide

I been telling you too many times

Bout the feeling when I get inside

Love the feeling when I'm inside

I don't really wanna lose your love

But I need to stop need to stop

So addictive I need to stop

Toxic as always ahh

Who the one that let you out to let loose

How many gives did I give you

See how everybody gave you the deuce

Oh how I don't wanna save you

Girl you know the devil won't save you

And you're own nigga won't save you

Girl you the devil not gonna save you

Girl what you doing out in St. Lu
