I wanna love you, I wanna, yeah, yeah  
I wanna, yeah, yeah  
Ooh  
Need me more than ever, ah-ah, ah  
Ah-ah, ah, ah-ah, ah, uh, yeah

Need me more than ever, I can't leave her  
Only thing I know is that I need her now (Uh)  
So much different ways that I can see her (Uh)  
Only one thing that's gon' make me keep her now  
She always ride for me, down for all my love  
And when I call, girl, you're always by the phone  
Need me more than ever, I can't leave her  
Only thing I know is that I need ya

Can't stop now, don't let up  
I've been countin' all the times you been fed up  
All them good friends you got, lookin' set up  
You need to watch who you hang with  
Such a Gotti thottie, last name Gelatto  
Your ex-boyfriend still call, why you let him?  
Don't say that you're leavin' me 'cause I ain't gon' let you  
I need you to believe in me  
You need to put it all on, right there  
Who said anything 'bout life either?  
Lil' shawty with the long hair, I can use that (Uh)  
You don't need to listen 'bout why he care  
All the things that you bring out me  
Lets me know, you make good out of me  
Ooh, feels like you'll take all the hood out of me  
Anything she wants to know, she can get out of me (Oh)

Mad gyal finna front  
Hear mi ah say  
No trust badmind friend, overstand, overstand  
(No trust badmind friend, overstand, overstand)  
(No trust badmind friend, overstand, overstand)

Need me more than ever, I can't leave her  
Only thing I know is that I need her now (Uh)  
So much different ways that I can see her (Uh)  
Only one thing that's gon' make me keep her now  
She always ride for me, down for all my love  
And when I call, girl, you always by the phone  
Need me more than ever, I can't leave her  
Only thing I know is that I need ya (Huh)

Nobody else can, huh, like this  
What do you mean?  
She come over at 5 AM and then never leave (Uh)  
Don't look at me like you're lickin' a ham  
I'm studyin' your body like I'm studyin' fam  
You tryna play them games, all I bet is a great iron  
I love you when you hate me and I ain't even know why  
Right there, uh-huh, don't faze me, no he ain't no guy (Uh-huh)  
See more than one person when I'm lookin' in your eyes  
Ain't hearin' nothin' if you ain't gon' take your own advice (If you ain't g

on' take your advice)

Oh
