

Stay With Me

Roy Woods

All this distance
Got my patience
Running thin
And I still can't
Help it
Where should I get started
Baby, I don't know
Need you to tell me
(Yeah yeah yeah)
You tell me
(Yeah yeah)
Long as you love me
(Yeah yeah yeah)
I don't see nun wrong
Said you ain't lonely
(Yeah yeah yeah)
But your not with me
(Yeah yeah yeah)
I'm in so deep
(Yeah yeah yeah)
But you think nothing wrong

Whoa whoa whoa
Whoa whoa whoa
Whoa whoa whoa
Whoa

Stay with me
Stay with me
I was hoping you would stay with me
Thru all this
Got me thinking I'm just a fool for your love
(Got me thinking I'm just a fool for it)
Girl, tell me what I gotta do for you love
(What I gotta do for it)
I don't wanna get into no run arounds
So I'm gon tell you Right here in person
If you tell me that I don't deserve your heart
Then I'll agree with you hundred percent
When you look at me I know you played the part
I was the one slipping in the first place
My fingers slipping away
Away
Away
Away

All this distance
Got my patience
Running thin
And I still can't
Help it
Where should I get started

Stay with me
Stay with me
I was hoping you would stay with me
Thru all this

Got me thinking I'm just a fool for your love
(Got me thinking I'm just a fool for it)
Girl, tell me what I gotta do for you love
(What I gotta do for it)
I shoulda made it better for you
After all you been thru
Just know it hurts me too
Knowing now
Girl, I shoulda have ran off and did them things to you
I should have never made a fool of you

I should have never thought of asking you
It's selfish of me to say

Stay with me
Stay with me
I was hoping you would stay with me
Thru all this
Got me thinking I'm just a fool for your love
(Got me thinking I'm just a fool for it)
Girl, tell me what I gotta do for you love

(What I gotta do for it)
