

Take Time

Roy Woods

M-M-M-Murda

We need to take time (time)
Take time, yeah
We need to take time (time)
If I take time, yeah
And if I take time (time)
If I take time, yeah
We need to take time (time)
If I take time, yeah

She said I know it take time
And you been running through my mind
When you coming to Toronto?
I wanna see you like pronto
She said I love your voice, you really make me moist
I been dancing all night
And I gotta catch a flight
I wanna see you turn around, I wanna see you move your body
I wanna see you turn around, I wanna see you move your body
Now take time off twenty, let me see you move your body
Now take time off twenty, now take time off twenty
Let me see you move your body, now let me see you move your body
Take time off me, baby take time off me
It's 24hrs, and it's Roy Woods
Don't tell nobody

We need to take time (time)
Take time, yeah
We need to take time (time)
If I take time, yeah
And if I take time (time)
If I take time, yeah
We need to take time (time)
If I take time, yeah

You know we got it going on
My weed smoke too strong
[?] still too long
I need to get outta here
Like God, who am I running to?
[?] come and bubble up

My girl, [?] respect
I'm young and I'm conscious
We play all of the time we spent
I got lost, another evening
I got lost in your eyes for a reason
She start crying, now she sing along
Ganja make her lungs cough
Take time with your breath now
Don't smoke if your lungs bust
Please don't stop me
I got down for you always
My thoughts, although I'm all rude

We need to take time (time)

Take time, yeah
We need to take time (time)
If I take time, yeah
And if I take time (time)
If I take time, yeah
We need to take time (time)
If I take time, yeah

24hrs
And you know it's right
24hrs
24hrs
