

Top Left

Roy Woods

Ooooooh
Ooooooh
Ooooooh nah
Oh no

You tell me that you want me
But then you not responding
I'm looking through our convo
Just a blank screen open
Now I'm lookin' at reflections
You always give me suspicions
No lie, me I tell no lie
You stay I say later, [?] what I don't like

Say your body, astounding, when you found me
You lost you
Said you'll find it, you'll find what?
Don't know what lost inside you
I don't need you comin' 'round
Told you I don't need you now
If you wanna stay, then obey the rules baby
Top left get left behind
Cause, top left, if you wanna get left like Beyonce
To the left, to the left
I be acting right, gotta push you to the left
Uncalled, but you wanna see me daily
Can't talk to you cause I know all your ways
On job, mami, I done see everything
Fresh start if you gon' act properly
(Say goodbye)
'Cause I lied into haze
If it's a vibe, simply talk to me
Don't cry getting in your feelings and bag
When I'm at your side, yeah

Watching people drive on the road
Left side watch around 'round with you
I'll let you take the wheel if you want Mrs
I don't mind if you pull up to your mama
Go ahead, girl I know you duckin' low
Got shooters and I know they 'round you
Double-0 7 girl, this ain't no 64

Say your body, astounding, when you found me
You lost you
Said you'll find it, find what?
Don't know what lost inside you
I don't need you comin' 'round
Told you I don't need you now
If you wanna stay, then obey the rules baby
Top left get left behind
Cause, top left, if you wanna get left like Beyonce
To the left, to the left
I be acting right, gotta push you to the left
Uncalled, but you wanna see me daily
Can't talk to you cause I know all your ways
On job, Miami, I done see everything

Fresh start if you gon' act properly
(Say goodbye)
'Cause I lied in a haze
If it's a vibe, simply talk to me
Don't cry getting in your feelings and bag
When I'm at your side
