

Singing For Our Lives

Royal Bliss

It's about love
Forgiving who we are
It's about losing everything and never giving up
It's about peace
Or nothing at all
It's about time that we get serious
About calling of the dogs

And we scream until we're out of breath
Singing for our lives
Will you bleed with us on this stage
Together in this fight
With the sound we'll break the ball and chain
With a song that will survive
Singing for our lives
Singing for our lives

So raise your voice
Can't quit, we've come too far
It's time we stand up people everywhere
Let's tell them who we are

And we scream until we're out of breath
Singing for our lives
Will you bleed with us on this stage
Together in this fight
With the sound we'll break the ball and chain
With a song that will survive
Singing for our lives
Singing for our lives

Until the summer disappears
Until the daylight leaves our face
Until the water runs dry

And we scream until we're out of breath
Singing for our lives
Will you bleed with me on this stage
Forever in this fight
With the sound we'll break the ball and chain
With a song that will survive
Singing for our lives
We're singing for our lives

And we scream until we're out of breath
Singing for our lives
Will you bleed with us on this stage
Together in this fight
With the sound we'll break the ball and chain
With a song that will survive
Singing for our lives
Singing for our lives
Singing for our lives

It's about love
Or nothing at all
