

# Either You Want It

Royal Blood

You lost your best friend  
Crippled by jealousy, still you got up and walked  
'Cause I'm not one for crawling  
And I'm sick of waiting for you to feel ready to talk

'Cause you call the shots  
Say go and I'm gone  
Just make up your mind  
And I'll get out the zone

'Cause either you want it  
Or you don't  
So come and get it  
Or leave me alone

Didn't ask to be rivals  
Caught up in your spiral  
'Cause you can't let it go  
'Cause I'd rather be strangers  
Than stuck here waiting for you at the end of road

'Cause you call the shots  
Say go and I'm gone  
Just make up your mind  
And I'll get out the zone

Either you want it  
Or you don't  
So come and get it  
Or leave me alone

Either you want it  
Or you don't  
So come and get it  
Or leave me alone

You call the shots  
Say go and I'm gone  
Make up your mind  
You make the call  
So come and get it if that's what you want  
But I think you're better alone

Either you want it  
Or you don't  
So come and get it  
Or leave me alone

Either you want it  
Or you don't  
So come and get it  
Or leave me alone
