

Oblivion

Royal Blood

Fire in my lungs, I'm spun
Walking on wire
In delirium, descending higher and higher

Can't live like this forever
Running out of lifelines
Going hell for leather for just one last ride

Gravity's pulling me down
It's time I got myself found
But just before I turn out the light

Tonight I ain't stopping for nothing
My devil is done, into oblivion (Oblivion)
Yeah, I had it coming
Too close to the sun, into oblivion (Oblivion)

Visions of the future, crystal in sight
My personal apocalypse finally arrived
Just a feather in bad weather
Yeah, lost in the wild
Can't live like this forever
Putting my world to rights

Tonight I ain't stopping for nothing
My devil is done, into oblivion (Oblivion)
Yeah, I had it coming
Too close to the sun, into oblivion (Oblivion)

Somewhere I lost my way
Let myself go to waste
Can't seem to change my fate
Oblivion
Oblivion

Ain't stopping for nothing
My devil is done, into oblivion (Oblivion)
Yeah, I had it coming
Too close to the sun, into oblivion (Oblivion)
(Oblivion)
(Oblivion)
(Oblivion)
(Oblivion)
