

Screen Time Overload

Royal Coda

Carefully watched their eyes
From reflection of windows
Remote send the top 10
Adjustment everything we wrote
Ooh and after I saw this
I promised to change the way
I spoke remained smooth and suave-ish
But I could never do without you

S-S-S-S-S-Stuttering
You got me owning up, up, up, up
Stuttering uh, uh, uh
Butterflies in my stomach
You make me feel it, yeah

I've been wrestling
With the idea that you love me
I've been called everything
You can never hurt me

Seeing through the fake disguise
Hypnotized the status quo
The top 10 dysfunction in young men
Stunting all the growth
Ooh and now they can't talk
And freeze up
Abbreviation
Cause no time to construct
Full sentences
And try to block it out but I always knew

S-S-S-S-S-Stuttering
You got me owning up, up, up, up
Stuttering uh, uh, uh
Butterflies in my stomach
You make me feel it, yeah

I've been wrestling...
Butterflies in my stomach
I've been called everything
Butterflies in my
I've been wrestling...
Butterflies in my stomach
I've been called everything

Oh yeah!
Trying to say what's up
Not giving a fuck
Interrupt
Every time I'm cutting up the stage
There's no need to front
When showing me love
You already know I stuttered enough
Baby come on up with me

Oh yeah!
Trying to say what's up

Not giving a fuck
Interrupt
Every time I'm cutting up the stage
There's no need to front
When showing me love
You already know I stuttered enough
Baby come on up with me
