Take A Long Drink For Me

Royal Crown Revue

She said please, take a long drink for me This hard luck gal, she don't like to plead So light my smoke.

Take a long drink for me.

She said please, have a seat right next to me You've got a smile, like a guy I used to see So be a pal.

Take a long drink for me.

She said please, have a long look at me Just pretend, and smile longingly Just like old times.

Take a long drink for me.
