

Hell Comes Down From Heaven

Royal Hunt

Now and then I look upon the sky... but why?
Yet another day is passing by... oh my
Not so sure what I am waiting for at your door
For a little faith in you? No more!

Can you try and tell me why from the sky
Your hell comes down from heaven
Everyday an endless play's staged away
While hell comes down from heaven
Go insane and spread the pain: let it rain
Let hell come down from heaven

Have you ever showed a single sign... divine
Have you ever heard a word of mine... of mine
Will you ever look me in the eye and lie?
Will you share a tear the day I die?

Can you try and tell me why from the sky
Your hell comes down from heaven
Everyday an endless play's staged away
While hell comes down from heaven
Go insane and spread the pain: let it rain
Let hell come down from heaven

You created life... it's such a mess, I guess
It never bothered you, couldn't care less... oh yes
I give up - you let me down... agree? You see
Thanks a lot, your hell comes down on me

Can you try and tell me why from the sky
Your hell comes down from heaven
Everyday an endless play's staged away
While hell comes down from heaven
Go insane and spread the pain: let it rain
Let hell come down from heaven

Again and again... a part of your plan: again and again
Your hell comes down from heaven
