

Can't Fight the Disco

Royal Republic

You go faster, we go high

I don't want a world in black and white
I need color in my life
I want neon lights, boogie nights
And a body to hold me tight
So no more rock 'n' roll
Give me glitter for a change
Give me neon lights, boogie nights
'Cause I'm ready for a change

You rock harder, we shine brighter
And you can't fight the disco
And you can't fight the disco
You go faster, we go high
And you can't fight the disco
And you can't fight the disco

You don't want a world in black and white
You need color in your life
You need bubblewine, a good good time
And you don't need a reason why
You know your rock 'n' roll
Will never be the same
So don't try so hard to be so much
'Cause we play a different game

You rock harder, we shine brighter
And you can't fight the disco
And you can't fight the disco
You go faster, we go high
And you can't fight the disco
And you can't fight the disco

You rock harder, we shine brighter
And you can't fight the disco
And you can't fight the disco
You go faster, we go high
And you can't fight the disco
And you can't fight the disco

I've got an appetite, a lust for life
I got no good reason to stay in tonight

You rock harder, we shine brighter
And you can't fight the disco
And you can't fight the disco
You go faster, we go high
And you can't fight the disco
And you can't fight the disco

I don't want a world in black and white
I need color in my life
And you can't fight the disco
And you can't fight the disco
You go faster, we go high
And you can't fight the disco

And you can't fight the disco
And you can't fight the disco
