

# This Means War

Royal Republic

Gotta sing to survive, there's no other way  
It's so heart numbing now  
You crossed the line too many times  
As he adds to the pressure so he does to the prize  
You're doing it right, you'll turn into a weapon  
I'm not gonna trust, not for a second  
Continue to ignite you, no turning back

This means war  
This means war

We've crossed the point of no return  
So giddy up  
We're great, we're great  
(Get the change, don't forget the receipt)  
This means war, the deal is off  
Nothing rough to the brakes  
No compromise, no surprise  
Until you get like this

This means war  
This means war  
This means war
