

Reflection

Royal Tusk

You couldn't feel it
That's a matter of fact
What doesn't matter
Leave it for later

You keep on running
No you can't look back
It's real, it's real
Ya hear you tell yourself
You're back on track
But in the water
It's in the water
Drink from the river
Lay down on your back
To feel, to feel

Do you feel it when you're on your own
Can you see it with your light lit low
Do you feel it? Can you see it oh

And all that you've ever known
Runnin from your shadow
Seek comfort in what's left unknown
The fear in reflection

You made a promise now it wants you back
You push it further and made another
One final call now they have come to collect
The deal, the deal

Do you feel it when you're on your own
Can you see it with your light lit low
Do you feel it? Can you see it oh

And all that you've ever known
Runnin from your shadow
Seek comfort in what's left unknown
The fear in reflection
Yeah

And all that you've ever known
Cover up what it could show
Assuming your perfect role
The fear in reflection
The fear of reflection
Theatre of perfection
Yeah!
The fear in reflection

Do you feel it when you're on your own
Do you feel it? Can you see it oh

And all that you've ever known
Runnin from your shadow
Seek comfort in what's left unknown
The fear in reflection
Yeah

And all that you've ever known
Cover up what it could show
Assuming your perfect role
The fear in reflection
The fear of reflection
Theatre of perfection
Yeah!
The fear in reflection
Theater of perfection
The fear of reflection
Theatre of perfection
The fear in reflection
Yeah!
