

Been Shot Down

Royce da 5'9"

I will murder you
I don't want to
But I will punish you, if I have to
I don't fuck with you
Cause your vibe is wrong, and it fucks with me
I don't play games
So you never know, never never know
You won't touch a bow till I'm touchin you
If I lose control I'll start shooting you
Till you like no no nooo

I will murder you
I don't want to
But u'll start to lose
Can't escape you
Nigga we can go
We can keep it low
So everybody else don't have to know

Another scrub shot down
A scrub shot down
You lose, I'll do youuu

Take a drink, ahhh,
I can't drain myself and still keep it cool
So I keep in mind do it on my own
Show up at your home, in the danger zone
How many times must I tell you before I finnaly got you
You fool, I'll do you

I just murdered you, cuz I wanted to
Cuz you had to go, that's just how I move
I won't waste no time, I will take your life
Nigga take this nine, here is the finish line

Another scrub shot down
A scrub shot down
You lose, I'll do you
