

Always Always

Royel Otis

I'm here
Where are you?
It's getting real late
And I've been here since 2

It used to get cold this time of year
I'd hate to get old without you here
The thought of you home has got me thinking only

Always, always, always, always
Always, always, always, always

I tried, I tried to get through
But I guess it's too late
I really miss you

It used to get cold this time of year
I'd hate to get old without you here
The thought of you home has got me thinking only

Always, always, always, always
Always, always, always, always
Always, always, always, always
Always, always, always, always

(La, la, la-la-la)
La, la, la
(La, la, la-la-la)
Oooh
Oooh (La, la, la-la-la)
Always
