

# Dancing With Myself

Royel Otis

I like the way that it makes no sense  
Just pretend that you understand  
Get on a plane tomorrow, head to France  
I've got plans for you  
I've got plans

Do anything you want to know  
Got everything that you could dream of  
Do anything you want somehow  
You know that I've been

Dancing with myself  
Don't wanna celebrate it  
Medicate it  
Dancing with myself  
Somewhere where I could fake it  
Recreate it  
Dancing with myself

You know where to find me, you do  
I know that the camera lies, ah  
The way that it started out with you  
But now I'm just  
Dancing with myself

Do anything you want to know  
Got everything that you can dream of  
Do anything you want somehow  
You know that I've been

Dancing with myself  
Don't wanna celebrate it  
Medicate it  
Dancing with myself  
Somewhere where I could fake it  
Recreate it  
Dancing with myself

When you can't  
Find a love  
When you can't  
Carry on  
When you can't  
Find a love  
When you can't  
Carry on

Dancing with myself  
Don't wanna celebrate it  
Medicate it  
Dancing with myself  
Somewhere where I could fake it  
Recreate it  
Dancing with myself

Do anything you want to know  
You know that I've been

Dancing with myself  
Do anything you want somehow  
You know that I've been  
Dancing with myself

Dancing with myself
