

# Only One

Royel Otis

And I'm just so tired of my sick mind  
I'll save it for the day that is yet to come  
At least another day, plus more and some  
If your such the sympathetic type  
Well listen to me now  
Listen to me now  
I'm kicking round picking up the pieces  
The ones the you left behind dear  
The night I crept inside

Wake me up to fall asleep  
Your cruel  
Am I the only one?  
Build me up to break me down  
Your cruel  
Am I the only one?

Sticking round just for different reasons  
Like the ones I left behind, dear  
The night you crept inside  
And I'm not yet tired of your sweet mind  
I'll leave that for the day that is yet to come  
At least another day, plus more and some  
If your such the sympathetic type  
Well listen to me now  
Listen to me now while you can  
Ah, oh, no fun

Wake me up to fall asleep  
Your cruel  
Am I the only one?  
Tonight  
Am I the lonely one?

Tears fly  
Hypnotized  
Turn the engine off  
Our little eves are hypnotized  
Dead as you like
