Berry

Rozzi Crane

We can smoke a joint and go to the museum
I don't love the high but oh, I like the feeling
Need a few lifetimes before I think 'bout leaving
First knew I loved you on Berry Drive

Oh, oh, oh
Oh, oh, oh

Got in a nasty fight but you know I wasn't stressing
'Cause I know what I saw went down inside your chest and
Called you my evergreen and everything else
First knew I loved you on Berry Drive

I said I hate how time is passing so you made it stop
Oh with your hands dancing on me till they hit the spot
Now we can't stop laughing in the restaurant
I love you like you love me and hold you like a thought

So when you're far away and need a steady hand
The problems you can't fix, I will understand
First knew I loved you that day at Berry Drive
But I think I could love you for the rest of my life

Oh, oh, oh
Oh, oh, oh
Yeah, hey, hey...
