

Jealous

Rozzi Crane

Been sleeping, sleeping, sleeping right next to my phone
And I've been staying, staying, staying, staying, staying alone
Leave what we had behind us
Boy, I'm trying, you know
To leave what we had for the record
But it's just too bad I'm...

Jealous, jealous
That our days are gone and you're moving on
I'm jealous, jealous
And I'm hoping you're the same
I'm growing every day with a deeper grief
This bad habit taking over me
I'm jealous, jealous
And it's such a lonely ride
And it's such a lonely ride

Driving, driving, driving all night in my car
You know I've been singing all day to forget who you are
Then you run in my rearview mirror
When I've been trying to get my vision a little clearer
Too bad I'm...

Jealous, jealous
That our days are gone and you're moving on
I'm jealous, jealous
And I'm hoping you're the same
I'm growing every day with a deeper grief
This bad habit taking over me
I'm jealous, jealous
And it's such a lonely ride
And it's such a lonely ride

You're like a cigarette
A bad habit in my life
Like a glass of red
I'm 'bout to drink it all night
I'm a habit, you're such a habit
A fucking habit
You're like a cigarette
A bad habit in my life
Like a glass of red
I'm 'bout to drink it all night
I'm a habit, you're such a habit
A fucking habit
And I just can't fight

I'm jealous, jealous
That our days are gone and you're moving on
I'm jealous, jealous
And I'm hoping you're the same
I'm growing every day with a deeper grief
All this shit is taking over me
I'm jealous, jealous
And it's such a lonely ride
And it's such a lonely ride

Do you feel me, you know
Do you feel me, you know
I've been watching you
I've been watching you
