

## Space & Time

Rozzi Crane

Let me get you on the phone, let me get you on the phone  
Let me hear your voice, let me hear you talk  
While I'm out on the road  
Let me hear you in my ear, [?] you're so near  
Let me hear that, let me feel that  
Just when the bass goes

I see roads, I see highways  
I'm trying to reach you, don't pick up  
And now California  
How's my baby? How's my home?  
And now I've been driving  
Chasing visions, I've been dreaming  
But I miss you  
Now when you call me back, I'm fast asleep

Tell me that this won't do  
Miss me how I miss you  
Get through all the space and time  
Don't you know the feeling?  
4 am, reeling  
Get through all the space and time

I want you  
Tell me that you want me, too  
Tell me that you're crying without my love  
Tell me that you miss my love  
I want you on the phone  
And no matter where I go  
I catch you [?] by your side  
Feel it through space and time

Strange bed, a strange city  
Put down the weeks until I feel your heat inside me  
Pretend you're there nights I can't sleep

Tell me that this won't do  
Miss me how I miss you  
Get through all the space and time  
Don't you know the feeling?  
4 am, reeling  
Get through all the space and time

I want you  
Tell me that you want me, too  
Tell me that you're crying without my love  
Tell me that you miss my love  
I want you on the phone  
And no matter where I go  
I catch you [?] by your side  
Feel it through space and time

Let me get you on the phone, let me get you on the phone  
Let me hear your voice, let me hear you talk  
While I'm out on the road  
Let me hear you in my ear, [?] you're so near  
Let me hear that, let me feel that

Just when the bass goes

I want you  
Tell me that you want me, too  
Tell me that you're crying without my love  
Tell me that you miss my love  
I want you on the phone  
And no matter where I go  
I catch you [?] by your side  
Feel it through space and time  
Tell me that you want me, too  
Tell me that you're crying without my love  
Tell me that you miss my love  
I want you on the phone  
And no matter where I go  
I catch you [?] by your side  
Feel it through space and time
