

# A New World

RPWL

Make me search for the one good man who's living on this Earth  
Before the dawn begins to break  
Take me to the place on this Earth where they're living their life in freedom and peace  
And there's more to feel that you can take as real

Look at the stars up in the sky  
All the lights are flashing by  
A new horizon can be seen  
Hold your breath, open your eyes  
It's a heavenly surprise  
A brand new start for you and me

It's a new world if we stand together  
Don't turn the blind eye to what's up in the sky  
It's a new dawn for a better meaning  
Come alive, it's time we all arise

Look at the stars it's not a dream  
Can't describe the things you see  
A miracle beyond belief  
Hold your breath, open your eyes  
Be prepared when they arrive  
The truth that comes from outer space

Face me, won't you let me be the one who looks behind your mask

Before the stream of light - it falls  
Chase me, come on I could show you the way to our magical secrets of life  
At how it feels to be free

Look at the stars up in the sky  
All the lights are flashing by  
A new horizon can be seen  
Hold your breath, open your eyes  
It's a heavenly surprise  
A brand new start for you and me

It's a new world if we stand together  
Don't turn the blind eye to what's up in the sky  
It's a new dawn for a better meaning  
Come alive, it's time we all arise

It's a new world if we start together  
So wonderful to see we're not alone  
We know that we could start all over  
Come alive, it's time we all arise

[bridge]

It's a new world if we start together  
So wonderful to see we're not alone  
We know that we could start all over  
Come alive, it's time we all arise
