

# Perfect Day

RPWL

Oh what a perfect day  
To feel we are alive  
Reach out for brand-new age to come  
Oh what a happy day  
To feel the sun is rising  
We waited for so long to hear this song  
Take me to the place  
Where we are more than just believing  
Take me to the place  
Where the world is more than self-deceiving  
Now is the time  
That comes once in a lifetime  
Come on and take the chance to set things right  
Now is the time  
To step into new life  
This will be our chance to see the light  
Oh what a perfect day  
There's nothing more between us  
The time for blind to see will be here again  
Oh what a happy day  
All colors fit together  
The key to a better life is in our hands  
Take me to the place  
Where we are more than just believing  
Take me to the place  
Where the world is more than self-deceiving  
Now is the time  
That comes once in a lifetime  
Come on and take the chance to set things right  
Now is the time  
To step into new life  
This will be our chance to see the light  
Now is the time  
Come on and set things right  
Now is the time  
To feel we are alive
