

All About U

Ruben Studdard

Baby, babe, it's so good to see you
I'm glad you finally made it
Give me your hug and drop them keys
You deserve to get it how you want it, oh oh, oh oh
My day was so long, you're waiting on me babe
Every moment that passes me by it makes me crave ya
So when I see you walk through the door
All I wanna do is get you about them close
And I'm gonna

Gonna make tonight, all about u
I could have set some time, all for u
Imma make tonight, all about u
I could wait some time, yeah, all for u

Baby, baby, tonight we're breaking all the rules
A little bit of this and a little bit of that, like your head b
ack up and I'm gonna rule you
I'm gonna do something special baby, oh to your body yeah
And if you like in the way that sounds (you would say that, you
would say that)
I'll put it down, only for you, just for you
I hope you're ready for me tonight yeah

Girl I'm gonna make tonight, all about u
I could have set some time, all for u
Girl let's make tonight, all about u
I put away some time, girl, all for u

Tonight it's gonna be a little different 'cause you won't be lo
oking for me, I'll be here
And we're gonna celebrate that doing what you want this time
It's all about u

Girl I'm gonna make tonight, all about u
I could have set some time, all for u
Girl let's make tonight, all about u
I put away some time, girl, just for u
Oh, just for u...
My baby...
