

# Lay By Me

Ruben

I stripped it down for your naked eyes  
So you could understand and let me inside  
So I hope you know through the rising tide  
That I'll be here and you can lay by my side

Oh, oh, oh  
You can rely on me, you know  
Oh, oh, oh  
When this town is locked and closed  
You can...

Lay by me, I still care  
When you need, lay by me  
Lay by me, if you're here  
You can still, lay by me

(Hey-oh-yeah  
Oh-oh-oh-oh, eh-oh-oh-oh)

I know the places you go to hide  
I've been in all those rooms I know what that's like  
Staring at paint as you watch it dry  
But don't forget your room is right next to mine

And you can lay by me  
If that is something you would need, yeah  
Lay by me, if you need  
You can...

Lay by me, I still care  
When you need, lay by me  
Lay by me, if you're here  
You can still, lay by me

Lay by me, I still care  
When you need, lay by me  
Lay by me, if you're here  
You can still, lay by me

(Hey-oh-yeah  
Oh-oh-oh-oh, eh-oh-oh-oh  
Hey-oh)

Lay by me, I still care  
When you need, lay by me  
Lay by me, if you're here  
You can still, lay by me
