

So High

Ruben

I've been worried 'bout who I am and what I've turned into
Will I measure up? Am I more than all the things I do?
It bothers me how all my songs end up in sad blues
Cause it's all so dark
But funny how when I'm here with you

I don't find it hard, though I'm black and blue
I forget it all, with you

I'm so high
I'm right where I want when I'm with you, yeah
I'm so high
I let my breaks fall apart when I'm with you, yeah
Ain't no lie
Feels like I lose myself when I'm with you, yeah
I'm so high
With you, I'm so high

Through my walk and talk you've figured out all the dark in me
So when you ask about how I feel and how I been lately

I say I don't find it hard, though I'm black and blue
I forget it all, with you

I'm so high
I'm right where I want when I'm with you, yeah
I'm so high
I let my breaks fall apart when I'm with you, yeah
Ain't no lie
Feels like I lose myself when I'm with you, yeah
I'm so high
With you, I'm so high

Had some bad nights in paradise
I almost lost my mind
You caught me right on time
You let me dry my tears
You got me facing fears
And for the first time in years
I feel alive

I'm so high
I'm right where I want when I'm with you, yeah
I'm so high
I let my breaks fall apart when I'm with you, yeah
Ain't no lie
Feels like I lose myself when I'm with you, yeah
I'm so high
With you, I'm so high
